Harmony Presents

*...the best possible scenario for the future of Humanity:
transform our World into a Paradise...*

Harmony, the Paradise Journey for a Heaven on Earth

Launch a WorldWide Movement,
in a globalized world now united through the media world

-

One shared project and one federating "Horizon" for Humanity
(this is what our civilisation is missing...)

www.harmonyparadise.com

A Project 4 Humanity

- **The Basis**

Humanity is just one big family, we're all humans and we all want the same thing in the end (our personal happiness, harmony with the world, and live in a paradise), and we are now all united for the first time in the History of Humanity thanks to globalization and the media world.

- **The Concept**

Launch a federating Worldwide Movement of Mankind into one direction, one common goal, a universal project to build a better world for every human being, more fair, more harmonious, more happy, more human, with the horizon of a « heaven on earth », the ultimate goal of our civilization...

- **The World Wide Win Win**

Make the poor richer, the sad happier, and the happy even more happy inside a happy environment, to satisfy each and every human being and so that everyone can have a decent legit and happy life.

Isn't that the ideal compromise for Humanity?

1. The Principles

- **The Possibility of Utopia**

It is possible and will only work if everybody does it at the same time, so that nobody has to make the first step, it's all together, all a little sacrifice & all in ideal paradise. And it is necessary for the survival of our specie on Earth: potential nuclear & religion war, climate breakdown, terrorism, high inequalities..

Dreams & Visions, Goals & Reality, Hope & Clarity

- **« The Miracle Solution »**

Why not? Why not now? In this era of globalization and of search of meaning in life. Why not a Heaven on Earth? There also used to be a time when walking on the moon seemed impossible... Everything is possible! Some of us just don't know it yet.

- **Belief in Human Kind-Ness**

If we cannot trust our own kind, how do we expect to coexist and end the wars? Let's open our eyes, we're all the same, with a conscience and a potential to be good.

2. The Philosophy

- **Humanism**

Humans are nor good nor bad, they evolve, they are the products of their environment, so all we need to do is change the environment and educate humans. Belief in Mankind, in its potential to be good.

- **« Peace Love & Happiness »**

The PLH uniting moto, the positive vybe around the globe...

- **« Schools of Life »**

Build schools all over the world to educate humans to the intelligence of life and the art of happiness, good moral positive values, tolerance, respect, love, human conscience, harmony, ..., for kids and adults so that we can learn all at the same moment of time

- **« Maturity of Humanity » in this Third Millenium**

Humans will now realize that to survive and live all together, we need to understand each other and live in harmony, share the Earth, the resources, the love, and take care of one another...

3. The Economics

● The fair Economic System

A WorldWide Social Liberalism, to assure decent vital minimal to all human beings (decent life line guaranteed), and to continue with the freedom of man to realize himself in a system where you can be who you want to be (market law).

Business & Ethics, Equity & Merit, no Misery & no Envy, Respect & Justice, Dreams & Passion

● The World Donation Foundation

Finance abundance in the world by sharing and with a centralized & coherent human solidarity. A transparent organisation, collecting funds and redistributing strategically with a global view on the long run.

« We've done hate, now we donate » upcoming World Campaign

● The Budget Focus

1. Eradication of Poverty
2. Research for Vaccines
3. Climate Relief
4. Schools of Life for everyone

4. The World Council - 1/3

● The Purpose

This is the birth of a new & at last coherent « 3 Dimensional World Order » composed of existing Sovereign Nations & Transnational Actors (UN, WTO, IMF, MultiNational Firms, NGOs, mafias...), plus a World Council.

This council, with no authority & power, will simply aim to give a vision, world guidelines and a future horizon for Humanity, set the goals of Heaven on Earth & explain the means.

Unity & stability, cooperation & long term coherence, moral & human values, harmony, happiness & elevation of all people.

● The Composition

It will be composed of wise worldwide representative icons, specialists, and spokesmen of every major trend (cultures, peoples, religions). At the service of ManKind.

Richard Branson had started to assemble a Council of Wise Men.

For instance, unite the best of the best at the service of Humanity...

4. The World Council - 2/3

● List of Potential Members of this World Council:

- Kofi Annan (ex UN SG),
- Jeffrey Sachs (Millenium Project & Economist),
- His Holyness the Dalai Lama,
- Bill Gates (The Gates Foundation),
- Nelson Mandela (Apartheid South Africa),
- Bill Clinton (ex US President & Global Initiative)
- Bono (U2 & Live 8 & Red) & Angelina Jolie
- Michael Jordan, Ronaldino, Zidane

.....

As well as other women, and spokesmen of each major Religion & International Organisations, Nobel Prize, Regional Icons...

Fascinating, simple & flexible, followed by the entire world civil society, democracies & governments, as the decisions will only be taken in the interest of Humanity as a whole & not for one or two countries.

**1 world civil society, 1 global village,
1 representative council**

www.harmonyparadise.com

4. The World Council - 3/3

● Examples of Current Guidelines

-Centralize all nuclear weapons

inside an international organization, in order to solve the nuclear crisis and not have a few presidents of countries possess the future of humanity and of the entire planet in their hands.

-Allocate the world budget & donations in priority

to the eradication of poverty (“misery”, among which the humanitarian and food crisis in Africa and Other regions), the research for vaccines and especially Aids & Malaria, the relief of the Climate & the Environment, and the building of “schools of life” in order to civilize and humanize all ManKind

-Give an impulse for the development of Africa and Poor Regions

and for graduates to go there and maybe start a business or work in companies

-Instore democracies with freedom in every country and erase capital punishment.

-Ask for forgiveness for the errors of the past, in order to start over on a good basis with no hatred.
Including France with the colonisation and slavery in Africa.

-Invite Oussama Ben Laden to a Peace Talk at the United Nations,

in order to really know what Al Quaida reasonably wants, and anyways because there doesn't seem to be any other way to put an end to international terrorism, on the long run.

-The harmonization of the world:

Unity of the World around one Committee, trust in it & hope for a better future for all.

**Unite Humanity around 1 common project in order to evolve
all together amongst each other & not against one another...**

www.harmonyparadise.com

5. The Reconciliation of Religions

- It is possible...with their « reason of being »

Before we enter in a global religion war, reconcile all religions amongst themselves and also with non believers.

It is possible to reconcile them, by fulfilling the original and primary objectives of religions, that is to say their common denominator and their reason of being: harmony within humanity, happiness for everyone, and humanism (values and respect of human beings).

The reunion of all religions is an absolutely necessary basis for the harmony of the world & “Harmony - The Paradise Journey” is an absolutely necessary basis for the reunion of all religions...

- Welcome to a new world of Peaceful Coexistence & Communion...

A world where we help each other, where we can have universal communions, peace, trust, harmony, mutual understanding, respect of everyone no matter their belief or non belief...

Always Remember that God left us our free will

www.harmonyparadise.com

6. *Harmony Music*

- **The Language of Music**

Music is the universal language to make us all commune together. Federating and melodious music, touching every human being and every human characteristic inside you. It will therefore be an « instrument » of this global humanist harmony adventure.

- **The Albums & The Festivals**

There will be a release of a series of albums, composed and performed by many artists from all kinds of genre, languages, influences, cultures.

There will be World Wide Music Festivals, alike the Live Aid/8 concerts, in a real positive vybe.

Currently, the first Harmony Album is in the making, produced by one of the Harmony Crew Members, VinSaint. Songs & Videos are already available on the website.

- **The Revenues**

At least Half of the revenues from these events & albums will go as donations.

9. Just Little Sacrifices...

These sacrifices will all be customized, relatively minimal, if applied by all:

- The rich: share a part of your fortune (what you want), donate some of that sleeping money, to redistribute the riches on our planet, as billions of people die & suffer
- The middle classes: make donations of what you can, and most importantly dedicate time for humanitarian missions or else to help others in need
- The poor & people who feel exploited: stop the violence, the gangs, the killings & the bombings. We need calm & peace for this journey to happen.
- The world icons & all influential people: inspire and try to set a good & ethical example and message. Actually this is for everybody...
- All: Keep some Ethic & Moral values in your acts, but still living well, enjoying yourselves and living your life fully (this is purpose of our existence on Earth...)
- All: Respect the people & the environment (don't waste, recycle and re-use...)
- All: Try to stay in the Positive energy, so you can give smiles, share and help others, feel the love, the peace, and the happiness will come to all of us in this new world of Harmony...

9. ...Result in an ideal Paradise

And on the other side, in this new world of Harmony, this is the kind of things awaiting us all:

- A World free from misery, suffering, and violence
- A beautiful and contagiously happy Environment
- A good Conscience for contributing to the well being of your own specie
- The possibility to be fully Happy and to fully “all-you-can-Be” yourself
- A Life of Harmony (coexistence in peace) with every other human being
- A decent and legit Life, for you and everybody else, so that nobody feels jealous, envious, or hating
- An entire World System (infrastructures, services, activities, ...) put in place exclusively for your well being
- Good and sane “Human” Relations with everybody, and the opportunity to open yourself and reveal your true you, with no image and no part
- ... (whatever you dream of, to be defined all together, as everybody needs to be satisfied with this new world)

Action! Day 1 Year 0

www.harmonyparadise.com

12. The Journey Step by Step – 1/4

- 1. The “Worldwide Impulse” given by the revelation through the Media of the Harmony project (Year 0 Day 1)-
- -The spreading of Harmony through this World Social Forum, the harmoniyparadise website, on the Internet blogs/forums, in discussions, from people across the globe... onto the reaching of people of influence to relay the information
- -The Worldwide Television Announce to launch this Paradise Journey and universal movement, with a speech on a news channel, at the forum or at the United Nations...
- -And we could then pick a date to launch The Voyage when everybody will be ready and up for it (progressive trust in Harmony & in Human Beings).

12. The Journey Step by Step – 2/4

- 2. The Exponential Impact of the Spreading of a Positive Energy across the Globe, with the first step being accomplished by everybody at the same time, through a Debate on Humanism and the starting of “Schools of Life”-
- -Common positives values of love & solidarity, peace & happiness (including inside the music, albums & festivals...)
- -Humanism & the understanding of Mankind (psychology / philosophy)
- -The mixing of Business & Ethics, in order to redirect the power of the MultiNational Firms, not into “profit at any cost” but into a human, humanist, and humanitarian conscience
- -The reconciliation of religions (Harmony is the only means to reconcile them and make them coexist with each other)
- -The primary attention given to the eradication of poverty, the protection of the environment and the return to mother nature, the research for vaccines

12. The Journey Step by Step – 3/4

3. The Deep Update and Restructuring of the World Regulation & Economic Institutions, based now on a real mutual trust, via the World Council, the WorldWide Social Liberalism, and the World Donation Foundation-

- The international cooperation in peace, understanding, and compromise in order for everybody to be heard, to win and to be satisfied
- The reorganisation of the « Corporations » (dominant world institutions) in their relationship to shareholders (less financial demand for the well being of humanity)
- The slowing down of progress and productivity, in order to lower to human stress and to discover a new well being, all at the service Humanity to start over on solid and sane grounds
- The progressive implementation of democracies & freedoms in every country
- The real sharp decrease in misery & poverty, through development, aid & donations
- The reform of the United Nations into a fair worldwide system and a “Community of Regional Entities”

12. The Journey Step by Step – 4/4

4. The Birth of a New World : Harmony, the actual Heaven on Earth

-We will all embark together progressively on this long journey, with happiness, humanism, and solidarity already on our path

-All of this will take time but we have to start one day to reverse the current autodestructive trend that Humanity has taken

-Who knows then where we will be able to go, everything is possible, this journey is infinite and the horizon may even be magical and slowly reveal itself to be above all expectations and desires

-And if you're reading these lines, then the journey has already begun...

13. The Prelude: The Cross Roads

- The entire History of Humanity (created by God, or not) is only the result of acts of men, all that was built can be destroyed and rebuilt (before it is destroyed...). Nothing is final!
Today is the crossroads of Humanity in its evolution.
- All the conditions are assembled for the creation of a new world now: We “can” launch a worldwide general movement in one direction, Harmony, and it “is” possible to create a Paradise on Earth, because it is the will and the desire of every single human being on this planet. The only thing we need now is to get everybody’s attention.
- Just imagine how hard it was to create this “\$hit world”, 6 million years of evolution, killing each other in wars, murders, slavery (physical & mental), sufferings, ... So creating a “paradise world”, which is what everybody wants and where everybody will be satisfied, shouldn’t be that difficult!
- We first need to understand mankind, from its original “human nature” (nor good nor bad) onto its “human condition” (the conditioning to the environment) and up to its “human essence”, born today, due to the conscience of man to analyse itself & learn from its mistakes. This is the “Maturity of Humanity”, the moment when Humans realize that they can and must be kind and good (and not just kind of good...) in order for their own specie to survive and to coexist in harmony.

Closing Statement & Harmony Entry: Man Kind, Stand Up!

“Every living human being will take great honour in being part of this universal and timeless Harmony voyage, as this 3rd millennium entrance will be remembered forever as the beginning of the World’s Paradise Journey, and we will all be remembered as the generation of people that changed the world for better & forever!

We can’t motivate you with a greater project for Humanity!”
